

AADIL SHAH

Full Stack Developer

✉ adilns786@gmail.com 🏠 Kalwa, Thane 🌐 adilnshah.web.app

PROFILE SUMMARY

A passionate Computer Engineer with expertise in full-stack web development and machine learning. I specialize in NextJs (and ReactJs), Firebase, Tailwind, and Flutter. My role as a Technical Officer at CSI and my success in winning the Smart India Hackathon '24 have honed my leadership and problem-solving skills. I am eager to leverage my skills in building impactful solutions.

SKILLS

• NextJs • React • Tailwind • Firebase • ML • Flutter • Java • Django

EDUCATION

BE Computer Science and Engineering

Aggregate CGPA: 9.36 2022-2026

Vivekanand Education Society's Institute of Technology, Chembur

PROJECTS

Sahkaar Setu — *Winning Project of Smart India Hackathon 2024*

- Developed a digital platform for inter-departmental cooperation in urban governance, addressing issues of resource underutilization and project miscoordination.
- Implemented features for data and resource sharing, task scheduling, and unified project planning to streamline inter-agency collaborations, enhancing efficiency in project execution.
- Tools Used: React, Firebase, Flask and Tailwind CSS.

Air Aware — *Presented to IEEE SILCON panel from NIT Agartala*

- Built an interactive web platform fetching real-time AQI and pollutant data, integrated with a nationwide map visualization.
- Engineered personalized health recommendations, identifying safe cities for users with respiratory conditions like asthma.
- Tools Used: Html, Javascript, Leaflet, Firebase.

Trip Sync — *Syrus'24 project, crowdsourced travel itinerary planner and personalized recommendations*

- Designed a platform for personalized travel itineraries using machine learning algorithms and user behavior tracking.
- Integrated features for blog creation, itinerary planning, and reviews, ensuring a seamless travel experience.
- Tools Used: React, Tailwind CSS, Flask, Python, and Firebase.

WORK EXPERIENCE

Freelance Full-Stack Developer

- Designed and deployed full-stack websites for small businesses using Next.js (TypeScript), React, Tailwind CSS, MongoDB, Express, and Cloudinary. Collaborated with clients to deliver user-friendly, responsive, and scalable web applications with seamless backend API integration.
- Live Link: [TheDzire Fashion Brand](#)

Technical Officer, CSI VESIT

Oct 2023 - present

- Conducted workshops on React and Flutter App Development, training over 50 participants, fostering collaborative learning and technical growth among peers. Maintained CSI's official website.

ACHIEVEMENTS

- Winner of Smart India Hackathon 2024 (Aug-Dec 2024) at IIT Gandhinagar
- Winner of TechXpression Hackathon (Feb 2025) at B.K. Birla College, Kalyan
- Selected presenter at IEEE SILCON 2024, NIT Agartala
